CITIZEN

The right place to start for industrial printing

Entry level industrial

Space-saving design concept

The Hi-Open™ case lifts up vertically meaning that the printer's footprint does not change as the cover is opened making it ideal for tight spaces.

Optional peeler

An optional peeler can be added to the CL-S700DTII giving the peel-and-present function without the height of the full liner rewinder case.

Easy configuration

The large graphic LCD gives a clear indication of printer status and easy printer configuration.
